Description #11044-HSS Optoelectronic TTL-Converter for modern generation of Sea&Sea housings for Canon, including newest 5Dm4 etc. All Canon cameras are compatible, independently of model and TTL protocol version. Supported strobes: Inon Z240, Z330, D2000; Ikelite DS161, DS160; Sea&Sea YS-250, YS-D1, YS-D2 (made-in-China); Subtronic Pro270, Pro160. Product supports Retra HSS up to 1/8000. TTL board supports 2 pcs optical bulkheads + 2 pcs electric bulkheads can be connected. Standard kit includes optical LED emitters (2 pcs.). The electric cable/connector (1 or 2 pcs.) for connection to nikonos-v bulkhead is optional product, can be purchased separately (please specify when ordering). Separate modular design allowed to save camera pop-up flash operation for optical synchronization as well. TTL-Converter has automatic switch On/Off, Incredible battery life, - 1 year of continuous work. Easy installation by user (using 2 bolts).
